Recently, the centrist Institutional Revolutionary Party (PRI) that governed Mexico from 1929 to 2000 retook the presidency after 12 years of rule by the conservative National Action Party (PAN) in the July 1, 2012 elections. The party also captured a plurality (but not a majority) in Mexico s Senate and Chamber of Deputies. PRI President Enrique Pena Nieto, a former governor of the state of Mexico, took office on December 1, 2012, pledging to enact bold structural reforms and broaden relations with the United States beyond security issues. U.S. policymakers are closely following what the return of a PRI government portends for Mexico s domestic policies and relations with the United States. Upon his inauguration, President Pena Nieto announced a reformist agenda with specific proposals under five broad pillars: reducing violence; combating poverty; boosting economic growth; reforming education; and fostering social responsibility. He then signed a Pact for Mexico agreement with the leaders of the PAN and leftist Party of the Democratic Revolution (PRD) containing legislative proposals for implementing an agenda that includes energy and fiscal reform. Although the pact may ease opposition in Mexico s Congress, Pena Nieto could face other constraints such as violence perpetrated by Mexico s powerful criminal organizations and the performance of the U.S. and global economies. Some analysts maintain that the prospects for reform under this administration are good, while others are more circumspect.
