

## 70-687 Configuring Windows 8.1 Lab Manual

---

By Microsoft Official Academic Course

John Wiley Sons Inc, United States, 2014. Paperback. Book Condition: New. Workbook ed.. 274 x 213 mm. Language: English . Brand New Book. This is the print lab manual adjacent to the 70-687 Configuring Windows 8.1 textbook. 70-687 Configuring Windows 8.1 prepares students for the first of two required exams for the Microsoft Certified Solutions Associate (MCSA): Windows 8 certification. Students master configuration or support for Windows 8 computers, devices, users and associated network and security resources. Those in this IT Professional career field are prepared to work with networks configured as a domain-based or peer-to-peer environment with access to the Internet and cloud services. In addition, these IT Professionals will have mastered the skills required to be a consultant, full-time desktop support technician, or IT generalist who administers Windows 8-based computers and devices as a portion of their broader technical responsibilities. Additional skills addressed, including the recent 8.1 objectives, in this textbook: Install and Upgrade to Windows 8 Configure Hardware and Applications Configure Network Connectivity Configure Access to Resources Configure Remote Access and Mobility Monitor and Maintain Windows Clients Configure Backup and Recovery Options The MOAC IT Professional series is the Official from Microsoft, turn-key Workforce training program that...
