It is of a wiry straggling habit, and produces large white flowers. A host of plants will have come under observation while the foregoing studies were in progress. Several of the yarrows may have been found in flower, the most common being the Common Milfoil, Achillea millefolium, a valuable pasture plant, and by no means valueless in the garden, for it answers well for turfing hot sandy banks where grass is sure to be soon burnt up in summer. The Rosy Yarrow of the garden border is a variety of the same plant, and one so rare in its beauty, though commonest of the common, that its flowers may be as fairly likened to jewelry as any other flowers that have been so honoured. The wild yarrow is usually white, but it is by no means uncommon to meet with many shades...
